Course Overview

Leadership provides direction, influence and governance that monitor organizational improvement. It is leadership that decides the success and the failure of the organization. In today's turbulent times, the issue of leadership and teamwork has become very essential for corporate to achieve organizational excellence. In the recent past we have witnessed it in many organizations from Satyam to Lehman Brothers. In fact, leadership is an adjective mostly attached to the growth of industry. This course is planned and designed to help the participants to understand how leadership can transform organization into a successful one and to realize what challenges are there in front of the organizations' leaders' path of progress. Many think that leaders' success depends on teams' performance. This course intends to focus on how to build effective teams in organizations and to encourage individual members to develop various skills, competencies, abilities, to enhance individual capabilities that are essential for effective team performance. It will also help them to develop awareness into their self motivation, optimism and specific plans of actions for enhancing their communication, problem solving and decision-making styles. The course is specially designed for people who are in the managerial positions or leadership positions in organization in some or other forms to achieve excellence for their organizations.
