Announces

The 5 day Short Term Course
(15th -19th Sept, 2015)

on

“Land Acquisition, Rehabilitation and Environmental Clearance of Projects” (Course Code: LARECP’2015)

Land acquisition has got a new dimension after the passing of the new LARR Act'2013. In a way it has given a new subject of discussion for all "Land and People Management". Today land acquisition is linked to compensation, rehabilitation and corporate social responsibility. Additionally, the actual audit of land, reconciliation of maps and approval of holdings and boundaries are becoming a new area of knowledge, particularly for an agrarian economy largely comprised of poor and diverse people.

Environment clearance is, without much doubt, the most important factor for project delay and cost overrun for all kinds of industrial activity, large or small. Much of these arise form the mismatch of expectations between the two parties – the developers and the regulators.

Environmental clearance is also getting a new dimension. What started in the Environment Protection Act,2006 for a few select industries and activities, today span over almost all industries that have some form of discharges in the environment. With the environmental problems exacerbating, more and more stringent norms are coming in place.

With this in mind the IIT, Kharagpur in terms of resource personnel co-operation with IBM, MoEF, PCB, DFOs and other relevant agencies has designed a short term course for the executives of the industry, civic and public services and affairs "Land Acquisition, Rehabilitation, and Environmental Clearance of Projects" to be held under the auspices of IIT, Kharagpur on **15th to 19th Sept '2015**.
