**COMMODITY DERIVATIVES & RISK MANAGEMENT
March 9-10, 2015**

Sponsored by Forward Market Commission (FMC) of India

Venue: VGSOM, IIT Kharagpur

Coordinators: Prof. Prabina Rajib

Prof. Arun K Misra

Objectives

Commodity derivatives market is witnessing substantial growth in India. The setting up of different national level demutualized commodity exchanges in India has facilitated the commodity derivative trading. Within a span of 6-7 years the commodity derivative market has come a long way in terms of trading volume, types of commodity traded, warehouse development and has brought in significant changes in changes in spot trading of commodities.

Volatility in commodity price risk is a fact of life. No company can wish away this risk. Commodity derivatives market provides an avenue to hedge this risk. This course will focus on different aspects of commodity derivatives being traded in the Indian commodity exchanges as well how these products are being used by different participants to hedge the risk. Even with spectacular growth, Indian commodity exchanges are yet to offer advanced derivatives products like Options, Spread Contracts like Crush and Spark Spreads, Exchange Traded Repos, Contract for Difference etc. as offered by commodity exchanges in some of the more advanced market like CME, LME ICE, Nordpool etc. These advanced topics will also be part of the course.

As part of the course the participants will be required to read, analyse current literature as well as undertake hands on modelling using data from Indian commodity exchanges such as NCDEX, MCX and data from global exchanges accessed from BLOOMBERG database.

Target Audience

Faculty members and research students (*having teaching & research interest in Financial Markets*) of Universities/Institutes. *Total number of participants is limited to 30.*

Topics to be Covered

- **Introduction to the working of commodity exchanges, players in the commodity market**
 - **Futures, Options, Swaps, Exchange Traded Repos, Spread contracts like Crack/Crush/Spark, Contracts for difference**
 - **Crude oil, Natural gas, Gold/Silver, Agricultural Products, Metals, Electricity, Carbon, Freight and Weather**
